
Jformdesigner License

. Do not need to start configure again. > .
JFormDesigner is a great component for form design.
> . This plugin requires license keys from FormDev
Software and does not work with JetBrains
Marketplace licenses. Use JFormDesigner
(Marketplace Edition) . This Marketplace Edition
plugin requires JetBrains Marketplace licenses and
does not work with license keys purchased from
FormDev Software. Use JFormDesignerQ:
Why is my collection not getting saved after I add
items with form/mongoose/mongoose-express? I am
new to this mongoose/express/node.js/front end dev

world and feel like I am missing something big here.

I am using mongodb, express, mongoose and mongoose-express for the backend and express js for the frontend. I have a collection of articles. When a user submits a form to add an article to the

collection, the following code is called:

```
app.post('/add', function(req, res) { var article = new
  Article({ title: req.body.title, description:
req.body.description, link: req.body.link, timestamp:
  req.body.timestamp }); article.save(function(err,
  article) { if (err) { res.send(err); } else {
  res.redirect('/'); } }) });
```

As you can see, I am attempting to save the submitted article to the collection of articles. Here is the schema definition for the collection: `var Article = new Schema({ title: String, description: String, link: String, timestamp:`

Date, votes: { type: Number }, comments: [{
