I recommend you to go to nearest Autodesk center and upgrade. Activation Key is needed for AutoCAD to activate. You should get it after you receive your AutoCAD product. Good luck. A: First of all, you need to understand that the activation code for Autodesk products is not required to install any software. It's used for product activation purposes. If you're having problems with Activation Codes, here are the things you can do: Use the online Activation Code Generator. Ask your Autodesk support representative to give you a new Activation Code. To be able to generate Activation Codes, you need to have the product activated or serial number, which is usually at the bottom of the product box. Q: How to check whether an exe files is running or not? How can I check whether a.exe file is running or not? Is there any command to see whether it is running or not? A: If you want to just see if it is running, use command process from the command line. The CMD.EXE command-line interpreter for the Microsoft Windows operating systems. CMD.EXE reads, interprets, and executes commands and batch files. The CMD.EXE command provides a way to run programs. Of course you can use PowerShell: \$process = Get-Process | Where-Object { \$_.Name -eq "WINWORD.EXE" } \$process.IsAlive Or, check the PSDrive provider: \$psdrive = New-PsDrive -Name Processes -Root \\server\share \$process = \$psdrive.Children | Where-Object { \$_.Name -eq "WINWORD.EXE" } \$process.IsAlive A modest proposal to reduce the number of PM decisions Maintaining the many governance decisions and functions carried out by the previous government is a major obstacle to the successful transition to the new government. The biggest challenges in the next five months will be to deal with the many accumulated decisions and functions that have been taken over many years in office. These include:
