Digital Camera News, Reviews and Tips The DPReview App for iPhone and iPod Touch One of the most useful aspects of the DPReview website is that if you want to read the latest news, reviews and tips, just by opening a web browser window you can do it on your iPhone and iPod Touch. Well, this time, we have adapted the site's functionalities to iOS devices, even though it's still in beta. As it does on desktop browsers, you can access the iPad and iPhone versions of the review pages by clicking on the "iPad" or "iPhone" tabs in the top left corner. The images are scaled appropriately so they are easy to view on the smaller screens. As of version 1.0, this app has over 70 total reviews (with more being added every day), almost 3,000 photos, and over 2,000 tips. It also has a convenient "Find Reviews" feature that lets you search for a specific camera model. Things to be aware of: 1) This is a beta version of the app. Once it is officially released, you'll find that the iOS interface is very different than the one used in the web browser. This is a known issue with the DPReview site, so just let it "cook" for a little while to allow it to integrate more into the iOS interface. 2) The app has a global search that is not necessarily tuned for your specific local language. For example, Japanese, French, German, Chinese, Spanish, Greek
